

DECON SAFETM

CBRN Decontaminant

Safe, Effective Chemical, Biological, Radiological and Nuclear Decontamination for Military, Civil Defense and Emergency Services.

- Decontaminates equipment, buildings, vehicles, personal gear, weapons and exposed skin.
- Nontoxic, noncorrosive, nonflammable, with a pH of 6.5.
- Available as a Concentrate, Ready-to-Use liquid, Hand & Body Soap and disposable wipes.
- Ideal for use in decontamination showers and pump sprayers.

Made with Pride in the U.S.A

How DECON SAFE™ works

Our proprietary formula attracts, binds and encapsulates contamination in solution, while strong surfactants lift away dirt, dust, oils, grease, bacteria, germs, viruses, blood, other biological material, chemicals, and radioactive contamination. **DECON SAFE™ Hand & Body Soap** contain moisturizers and has a pleasant almond scent.

Tested and Proven

In independent 3rd party tests, **DECON SAFE™** was shown to effectively remove over 98% of biological contaminants, over 98% of chemical contaminants and up to 99% of radioactive contaminants in a single application. The **DECON SAFE™** formula has been used for over 30 years and is proven safe and effective for all surfaces.

How to use DECON SAFE™

DECON SAFE™ Decontamination Spray

Spray generously onto contaminated surfaces. Wait 60 seconds, rinse or wipe with clean disposable towels. Heavily contaminated areas may require repeated cleaning. Difficult to clean items may be submerged in DECON SAFE™ for 60 seconds, remove item and rinse well with clean water.

DECON SAFE™ Hand & Body Soap

Wet your hands with water. Pump into your palm. Rub on you skin vigorously for 60 seconds. Rinse skin thoroughly with clean water.

DECON SAFE™ Decontamination Wipes

Pull a wipe from the center of the roll. Wipe surface thoroughly. Keep bag closed to avoid evaporation and drying of unused wipes.
