

Product Specification Sheet

PRODUCT TITLE:

Specification of Product 1:	DECON SAFE™ Decontaminant Concentrate
Specification of Product 2:	DECON SAFE™ Decontaminant Ready-to-Use Spray
Specification of Product 3:	DECON SAFE™ Decontamination Hand & Body Soap
Specification of Product 4:	DECON SAFE™ Decontaminant Wipes

DECON SAFE™ Decontamination products offer highly effective, non-corrosive, radioactive removal products that are pleasantly scented and safe for routine use. DECON SAFE™ is designed to be effective on most Isotopes and is especially effective on all radio-iodines.

Independently tested DECON SAFE™ can remove 99.49% of nuclear fallout, 98% of chemical contamination and 98% of biological contamination. DECON SAFE™ is effective on I123, I125, I131, I129, Tc99m, TI201, In111, F18, Ga67, Mo99, Ac225, Cs137, Pb212 and more.

DECON SAFE™ is shelf stable, with a guaranteed shelf life of at least 60 months.

Key Features of DECON SAFE™ Decontamination Fluid

-  Effective cleaner and CBRN decontaminant in one.
-  Pleasantly scented - no harsh odors!
-  Safe for use on all tested material even skin..
-  Non-corrosive, non-toxic, non-flammable with a pH of 6.5.
